Section 1 Introduction

Values, Vision and Purpose

Cherry Tree School's commitment to equal opportunities is driven by the National Curriculum Inclusion statement.

The school:

- sets suitable learning challenges;
- responds to pupils' diverse needs;
- overcomes potential barriers to learning and assessment for individuals and groups of pupils.

Cherry Tree School aims to identify and remove barriers to disabled pupils in every area of school life.

Cherry Tree School makes all children feel welcome irrespective of race, colour, creed or disability.

The purpose of our school's Disability Equality Scheme and Accessibility Plan is to show how we are meeting the duty to promote disability equality and accessibility for disabled pupils, staff and parents.

Consultation

Articles 12 and 13 UN Convention of the Rights of the Child:

Children, who are capable of forming views, have a right to receive and make known information, to express an opinion, and to have that opinion taken into account in any matters affecting them.

At Cherry Tree Primary School, we fully acknowledge and respect this principle. As a result, the following plan has been written following consultation with pupils, staff and governors and takes into account their views and aspirations. Furthermore, we liaise with parents and professionals involved with the children to ensure we provide the right care for their needs.

Recruitment, development and retention of disabled employees

The information gathering duty applies to all job applicants and those working at the school. We have considered:

- the respective responsibilities of the school and the local authority;
- collecting information on new staff through the recruitment process;
- how to collect information on existing staff;
- the analysis of the information to show how disabled staff are represented amongst different groups of employees, at different levels of the school, and amongst those who leave the school.

Our scheme:

- draws on current information;
- shows how information gathering is going to be improved in the future;
- reflects the benefits of a diverse workforce.

Educational opportunities available to and the achievements of disabled pupils

The gathering of information on disabled pupils includes an analysis of:

- how many disabled pupils there are in the school, which impairment groups are represented, or not represented, in our school;
- the participation of disabled pupils across the life of the school in curricular and extra-curricular activities, in positions of responsibility; the factors affecting participation, for example: policies on medication, bullying, access;
- achievements of disabled pupils as reflected in attainment, accredited learning, achievements in extra-curricular activities, broader outcomes such as those set out in *Every Child Matters*.

Disabled parents, carers and other users of the school

Although we are not required to gather information on other disabled people using our services, the general duty still applies and, where we are able to collect such information, we recognise that we will be in a better position to show how we are promoting disability equality for disabled people using the school.

Impact Assessment

Impact assessment is a systematic approach to the analysis of the effects of a policy, practice or procedure for disabled pupils, staff and parents.

The main mechanism by which we will assess the impact of our current policies is by bringing together:

- the issues identified through the involvement of disabled pupils, staff and parents; and
- the information that the school holds on the disabled pupils, staff and parents.

We recognise the need to assess the impact of our current policies. This can be carried out over the lifetime of the scheme. We have involved disabled people in prioritising what is to be looked at first. Impact assessment is incorporated into our planned review and revision of existing policies and is also incorporated into the process of developing new policies.

2: Identifying the main priorities for our scheme and deciding our actions

We have set the priorities for our school's scheme in the light of:

- an examination of the information that we have gathered; and
- the messages that we have heard from the disabled pupils, staff and parents who have been involved in the development of the scheme.

Section 2 Accessibility at Cherry Tree School

Cherry Tree School's governors and staff will have regard to the Equality act 2010 and its implications for the school. The school will also follow the guidance issued in the new SEND code of practice 2014

Cherry Tree School will ensure that all staff and governors are aware of the implications of the Equality Act and, through training and development opportunities, embed the good practice across all aspects of school life.

Over time Cherry Tree School has tried hard to achieve its vision and a number of the successful outcomes are listed below:

- A children's accessible toilet has been created with a rise and fall changing bed
- All classrooms and the preschool allow full access for all wheel chair users
- Ramped access was installed to one of the external hall doors
- A hoist has been purchased
- Ramps were fitted to the main entrance door, all playground porch doors and the foundation stage classroom door to enable wheelchair access to the school
- The inner entrance security door was widened to enable wheelchair access
- Disabled parking space clearly labelled in school car park
- Our recently installed running track has wheelchair access

At Cherry Tree School we try to ensure that every child has the best opportunity to achieve. We make 'reasonable adjustments' to our practices and policies to meet the requirements of the Equality act 2010. We do recognise that there is always room to improve and the Action Plan shows our wish to continue to develop our practice.

On 'access to the curriculum,' we have incorporated inclusive developments through national strategies, through local initiatives and through in-school developments. Lesson observations include aspects of inclusion in teaching and learning.

Scheme of Work revisions include measures to ensure that all pupils including those with disabilities can access the curriculum. This is a rolling programme of improvements which is leading to holistic embedding of the principles.

We will use our information systems to monitor our progress as a school and the progress of disabled children within the school to ensure that we are helping all children achieve.

Section 3 Involvement

We have a number of pupils with identified medical needs, where appropriate these children have a Care Plan in place. This Care Plan is reviewed annually.

All children who have an EHC plan receive an annual review. All professionals who are involved with the child's care as well as parents and school staff (SENDCO, class teacher, TA, Head Teacher) are invited to the annual review where targets for the next 12 months are agreed.

OTs, physiotherapists, speech and language therapists are regular visitors to the school to work with individual children.

Members of the school staff attend CPD opportunities to extend their knowledge skill and understanding.

Section 4 Management, Coordination and Implementation

The school SENDCO in consultation with the Head Teacher and class teachers is responsible for monitoring pupils with special needs.

An SEND Governor is appointed to monitor the SEND policy and inclusion in consultation with the SENDCO and Head Teacher.

The Resources Committee is responsible for the Action Plan in consultation with the Head Teacher and Inclusion Governor.

Appendix

Definition of Disability, taken from the Equality Act 2010

4.4 The Act defines disability as when a person has a 'physical or mental impairment which has a substantial and long term adverse effect on that person's ability to carry out normal day to day activities.' Some specified medical conditions, HIV, multiple sclerosis and cancer are all considered as disabilities, regardless of their effect.

4.5 The Act sets out details of matters that may be relevant when determining whether a person meets the definition of disability. Long term is defined as lasting, or likely to last, for at least 12 months.
